Date:.....

Dear Sir,

Renal Cell Carcinoma; mRCC
Oncology drugs-Sunitinib(Sutent) & Sorafenib(Nexavar)

Would you please let me know the outcome of any discussions from the Urology and/or Oncology Network Site Specific Group Meetings and Drugs and Therapeutics, Prescribing or commissioning Committees concerning the above drugs.

In addition would you also please provide me with copies of all minutes where this drug has been discussed and what, if any, recommendation has come from your Cancer Network to Commissioners regarding the use of this orphan drug in either 1st or 2nd line treatment of mRCC.

Please acknowledge receipt of this email.

Thank you,

Yours sincerely,

A Patient
